#### PRO SHOP QUIZ

Is it a member number 423, a swing malfunction or a pedometer malfunction.

Male member '423' spends more time on the range than "Vijay" but he is not Singher,

He's a writer .....Got it?

This member played 10 holes that measured approximately 3450 metres and his pedometer read 6900 metres.

Factoring in the distance between green and tees at a conservative average of 50 metres, which totals 500 metres, this means that Mr 423 spent 3050 paces walking "offline".

Question from the course marshal—is Mr 423 the reason for slow play?

Question from the pro shop—does he have control of his golf ball or is this a revolutionary method for measuring your standard of play?

How many steps off line do **YOU** take?

Quick resolution - next time take a cart Mr 423.
